J. H. Wildes, Principal Draughtsman U.S. Surv. Gen.l Office. San Francisco, August 17, 1868.

The CENTRAL PACIFIC R.R. Franchises for 10 Miles took effect Sept. 12th 1862, and for 20 Miles Oct 4th 1864, the Grant comprises alternate odd Sections of Land, not exempted, on each side of the Road, for 20 Miles in width. The CAL. and OREGON R.R. Grant took effect Nov. 25. 1867, and is of the same dimensions for 20 Miles and conditional for 30 Miles. The WESTERN PACIFIC R.R. Grants for 20 Miles took effect Jan 30th 1865. The PLACERVILLE and SAC. VAL. R.R. dates July 13th 1866.

as Patented or designated, are shown by strips, or belts, at the right angles of forty, county, or layer 18 chs of Land, moving parallel with the Route. The 16th and 36 Sections are School Sections. By Cal. Statute of Feb. 18th 1864, No action for the recovery of mining Claims—or possession thereof shall be maintained—unless it appear that the Plaintiff—owned within two years before the commencement of this action. An Act concerning Partnerships for mining or prospecting purposes. Approved, March 26th 1866, requires—notice—Board of Trustees—number of shares—amount due, &c. An Act concerning Assessments upon the Stock of Corporations, Approved April 2d 1866, permits partners or a majority of the Shares, to make each liable for their respective proportions of labor or expenses incurred, once in 30 days, by any member not delinquent, according to the By-laws of the Company, and giving lawful notice—and sale or deeming delinquents to have abandoned—parts, or all of their rights in said mining Claims. By Act of 1866, Vendors of adulterated Quicksilver are liable for fourfold damages, except where it applies to Quicksilver—before used—and so stated. Mining Claims are now taxed. As per U.S. Statutes, Page 251 Chap. 242) right of way to ditches, Canals and highways, the survey and purchase of Quartz Veins; the pre-emtion of Homesteads on Agricultural lands in mining districts & are granted and provided for. also Statutory and Territorial legislation recognized and minutely expressed in the Patent. A miner's inch of Water under a six inch pressure, measuring from the Centre of a two inch apperture, as per measurement by the South Yuba Canal Co. is 14 gallons flow per minute, there should be a statute on uniform measurement. Also Statutes securing Government subdivision lines as Co. Boundaries, thus giving Symetry and Practical convenience.
